INDEPENDENT AUDITORS' REPORT

The Board of Trustees Imperial Community College District Imperial, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of the Imperial Community College District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Imperial Community College District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the 2018-2019 *Contracted District Audit Manual*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information section, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information listed in the Table of Contents, including the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

(MOL, Certiful Poblic Accountants

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

San Diego, CA

December 10, 2019

IMPERIAL COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2019

The Imperial Community College District (District) consists of one main campus. The District serves approximately 7,500 students per semester. Full-Time Equivalent Student (FTES) for 2018-2019 was 7,450.

The following discussion and analysis provides an overview of the financial position and activities of the Imperial Community College District for the fiscal year ended June 30, 2019. Please read it in conjunction with the financial statements and notes thereto which follow this section. Responsibility for the completeness and accuracy of this information rests with the District management.

FINANCIAL HIGHLIGHTS

Net position decreased by \$4.6 million or 5% from the prior year. This was due to prior period adjustments of \$4.8 million offset by an increase in net position of \$0.1 million.

STATEMENT OF NET POSITION

The Statement of Net Position presents the Assets, Liabilities, and Net Position of the district as of the end of the fiscal year using the accrual basis of accounting, which is comparable to that used by most private-sector institutions. Net Position—the difference between assets and liabilities—are one way to measure the financial health of the district. The net asset data allows readers to determine the resources available to continue the operations of the district.

The Net Position of the district consists of three major categories:

- 1. Invested in capital assets, net of related debt The district's equity in property, plant, and equipment.
- 2. Restricted Net Position (distinguished between major categories of restriction.) The constraints placed on the use of the assets are externally imposed by creditors such as through debt covenants, grantors, contributors, or laws or regulations of other governments or imposed through constitutional provisions or enabling legislation.
- 3. Unrestricted Net Position The district can use them for any lawful purpose. Although unrestricted, the district's governing board may place internal restrictions on this Net Position, but it retains the power to change, remove, or modify those restrictions.

IMPERIAL COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2019

STATEMENT OF NET POSITION, continued

	2019			2018		Change
ASSETS AND DEFERRED OUTFLOWS OF RESOURCES						_

Total Net Position	\$	(97,020,946)	\$	(92,577,117)	\$	(4,443,829)

The District's Net Position decreased \$4.6 million or 5% from the previous year. Revenue received but not yet earned has decreased by \$1.9 million. Finally, much of the District's unrestricted Net Position have been designated or reserved for capital outlay and debt service.

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

The Statement of Revenues, Expenses and Changes in Net Position presents the operating results of the District. The purpose of the statement is to present the revenues received by the district, both operation and non-operating, and the expenses paid by the district, operating and non-operating, and any other revenues, expenses, gains and losses received or spent by the district. State general apportionment funds, while budgeted for operations, are considered non-operating revenues according to generally accepted accounting principles.

Changes in total Net Position on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues are received for providing goods and services to the various customers and constituencies of the district. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the district.

Total Non-Operating Revenues (Expenses)		62,528,730		43,363,170	19,165,560
Change in Net Position		134,037		(5,170,013)	5,304,050
NET POSITION, BEGINNING OF YEAR		(92,577,117)		(46,126,999)	(46,450,118)
PRIOR PERIOD ADJUSTMENT (SEE NOTE 11)		(4,577,866)		(41,280,105)	36,702,239
NET POSITION, END OF YEAR	\$	(97,020,946)	\$	(92,577,117)	\$ (4,443,829)

The Statement of Revenues, Expenses, and Changes in Net Position reflect a challenging year with a decrease in the Net Position at the end of the year. The cost of operations increased by \$14.3 million, primarily relating to non-cash pension activity related to pensions and OPEB. Although the statement shows an operating loss of \$62.4 million, that balance does not reflect the \$62.5 million in non-operating revenues. Because of an adjustment to the prior period, the District reports a decrease in its Net Position of \$4.6 million dollars for this fiscal year.

STATEMENT OF CASH FLOWS

The Statement of Cash Flows provides additional information about the district's financial results by reporting its major sources and uses of cash. This information assists readers in assessing the district's ability to generate revenue, meet its obligations as they come due, and evaluate its need for external financing. The statement is divided into several parts. The first part deals with operating cash flows and shows the net cash used by the operating activities of the institution. The second section reflects cash flows from non-capital financing activities and shows the sources and uses of those funds. The third sections deals with cash flows from capital and related financing activities. This section deals with cash flows from investing activities. This section reflects the cash received and spent for short- term investments and any interest paid or received on those investments.

DISTRICT'S FIDUCIARY RESPONSIBILITY

The District is the trustee, or fiduciary, for certain amounts held on behalf of students, clubs and donors for student loans and scholarships. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These activities are excluded from the District's other financial statements because we cannot use these assets to finance operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the District's Business Office, Imperial Community College District, 380 E. Aten Road, Imperial, California 92251.

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Reporting Entity

The Imperial Community College District (District) is a political subdivision of the State of California and provides educational services to the local residents of the surrounding area. While the District is a political subdivision of the State, it is not a component unit of the state. The District is classified as a state instrumentality under Internal Revenue Code Section 115, and is therefore exempt from federal taxes. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Government-Wide Statements. The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

Basis of Accounting

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities (BTA). Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. All material intra-agency transactions have been eliminated.

The District records revenues when earned and expenses when a liability is incurred regardless of the timing of the related cash flow. The budgetary and financial accounts of the District are recorded and maintained in accordance with the Chancellor's Office's Budget and Accounting Manual.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested in the county treasurer's investment pool are considered cash equivalents.

Restricted Cash and Cash Equivalents

Restricted cash and cash equivalents are those amounts externally restricted as to use pursuant to the requirements of the District's grants and contracts and amounts.

Accounts Receivable

Accounts receivable consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff, many residing in the State of California. Accounts receivable also include amounts due from the federal government, state, and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. The District does not record an allowance for uncollectible accounts. When receivables are determined to be uncollectible, a direct write-off is recorded.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. Capitalized equipment includes all items with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the asset are capitalized. Routine repairs and maintenance are charged as operating expense in the year in which the expense was incurred.

Depreciated of capitalized assets is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 15 years for portable buildings, 10 years for land improvements, 8 years for most equipment and vehicles, and 3 years for technology equipment such as computers.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Net Position

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory, prepaid items, the long-term portion of loans receivable, and nonfinancial assets held for resale. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact, such as the principal of a permanent endowment.

Restricted - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification reflects amounts subject to internal constraints self- imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. In contrast to restricted fund balance, committed fund balance may be redirected by the government to other purposes as long as the original constraints are removed or modified in the same manner in which they were imposed, that is, by the same formal action of the Governing Board.

Assigned - The assigned fund balance classification reflects amounts that the government *intends* to be used for specific purposes. Assignments may be established either by the Governing Board or by a designee of the governing body and are subject to neither the restricted nor committed levels of constraint. In contrast to the constraints giving rise to committed fund balance, constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the Governing Board. The action does not require the same level of formality and may be delegated to another body or official. Additionally, the assignment need not be made before the end of the reporting period, but rather may be made any time prior to the issuance of the financial statements.

Unassigned - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

When an expense is incurred that can be paid using either restricted or unrestricted funds, the District's policy is to utilize available restricted resources, followed by unrestricted resources.

State Apportionments

Certain current year apportionments from the state are based on various financial and statistical information of the previous year. Any prior year corrections due to the recalculation in February of the subsequent year and are recorded in the District's financial records when received.

On-Behalf Payments

GASB Statement 24 requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third-party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' and Public Employees' Retirement System on behalf of all Community Colleges in California. However, a fiscal advisory issued by the California Department of Education instructs districts not to record revenue and expenditures for these on-behalf payments.

Deferred Revenues

Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year buy related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Operating Revenues

Operating revenues include all revenues from programmatic sources. Non-operating revenues include state apportionments, state and local tax revenues, investment income and gifts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Classification of Revenues

The District has classified its revenues as either operating or non-operating. Certain significant revenue streams relied upon for operations are recorded as non-operating revenues, as defined by GASB Statement No. 61, including state appropriations, local property taxes and investment income. Revenues are classified per the following criteria:

- Operating Revenues Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) most federal, state and local contracts and federal appropriations, and (4) interest on institutional student loans.
- Non-operating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, most federal, state and local grants, and other revenue sources described in GASB Statement No. 61, such as state appropriations and investment income.

Investments

In accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, investments are reported at fair value. However, cash in the county treasury and some investments are recorded at cost, which approximates fair value.

Restricted Cash and Cash Equivalents

Cash that is externally restricted for contractual obligations such as debt service payments, sinking or reserve funds, or to purchase or construct capital or other non-current assets is classified as a non-current asset in the statement of Net Position.

Compensated Absences

Compensated absence costs are accrued when earned by employees. Accumulated unpaid employee vacation benefits are recognized at year-end as liabilities of the District.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for eligible employees when they retire.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Scholarship Discounts and Allowances

Student tuition and fee revenue are reported net of scholarship discounts and allowances in the statement of revenues, expenses and changes in Net Position. Scholarship discounts and allowances represent the difference between stated charges for goods and services provided by the District and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as operating revenues in the district's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the District has recorded a scholarship discount and allowance.

Federal Financial Assistance Programs

The District participates in Federally funded Pell Grants, SEOG Grants, and Federal Work-Study, as well as other programs funded by the Federal government. Financial aid to students is either reported as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. These programs are audited in accordance with the Uniform Guidance. These amounts have not been included as revenues or expenses within the accompanying financial statements as the amounts were passed directly to qualifying students.; however, the amounts are included on the Schedule of Expenditures of Federal Awards.

New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the District.

GASB Statement No. 83 – Certain Asset Retirement Obligations. The objective of this Statement is to address accounting and financial reporting for certain asset retirement obligations. The Statement is effective for periods beginning after June 15, 2018.

GASB Statement No. 84 – Fiduciary Activities. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The Statement is effective for periods beginning after December 15, 2018.

GASB Statement No. 87 – Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The Statement is effective for periods beginning after December 15, 2019.

GASB Statement No. 88 – Certain Disclosures Related to Debt, Including Direct Borrowing and Direct Placements. The objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarified which liabilities government should include when disclosing information related to debt. The Statement is effective for periods beginning after June 15, 2018.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

New Accounting Pronouncements, continued

GASB Statement No. 90 – Accounting for Interest Cost Incurred before the End of a Construction Period. The objective of this Statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

NOTE 3 – CASH AND INVESTMENTS

Summary of Cash and Investments

Cash and investments as of June 30, 2019, consisted of the following:

Primary government	\$ 58,186,544
Fiduciary funds	345,623
Total Deposits and Investments	\$ 58,532,167
Cash in county treasury	\$ 58,001,648
Cash on hand and in banks	 530,519
Total Deposits and Investments	\$ 58,532,167

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; collateralized mortgage obligations; and the County Investment Pool.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair market value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair market value to changes in market interest rates. The District manages its exposure to interest rate risk by primarily investing in the County Investment Pool and in other investment agreements.

NOTE 3 - CASH AND INVESTMENTS, continued

Specific Identification

Information about the sensitivity of the fair market values of the District's investments to market interest rate fluctuations is indicated by the following schedule that shows the distribution of the District's investment by maturity:

Inveestment or Deposit Type	Fair	Market Value	Maturity		
Imperial County Investment Pool	\$	58,386,862	698 Days		

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the County Treasury are not required to be rated.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

NOTE 4 – ACCOUNTS RECEIVABLE

Accounts receivable consist of the following at June 30, 2019:

		Primary				
	G	Government				
Federal categorical aid	\$	1,333,462				
State categorical aid		550,685				
Local Sources		679,641				
Total	\$	2,563,788				

NOTE 5 – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2019, is summarized below:

NOTE 6 - LONG-TERM OBLIGATIONS, continued

Description on Debt

Payments on the general obligation bonds are made by the bond interest and redemption fund with local property tax collections. The General Fund makes payments for the lease revenue bonds, capital leases, and the supplemental employee retirement plan. An accrued vacation will be paid by the fund for which the employee worked.

Original issuance premiums and issuance costs are amortized over the life of the bonds as a component of interest expense on the bonds.

Bonded Debt

In November 2006, the District issued \$13,285,473 of the 2004 Election, Series 2006B General Obligation Bonds. The issue consisted of \$4,475,000 of Current Interest Bonds with interest rates ranging from 4.00% to 4.25% and maturing August 1, 2037, and \$8,810,473 of Capital Appreciation Bonds with interest rates ranging from 4.55% to 11.00% maturing August 1, 2031. The current interest bonds have been paid in full.

In November 2007, the District issued \$11,915,816 of the 2004 Election, Series 2007C General Obligation Bonds. Proceeds from the sale of the bonds will be used to finance the addition and modernization of college facilities for the District. Interest is payable February and August 1, commencing August 1, 2009 and through the maturity date August 1, 2032.

In May 2009 the District issued \$3,031,779 of the 2004 Election, Series 2009D General Obligation Bonds. Proceeds from the sale of the bonds will be used to provide funding for college facilities projects as stated in the ballot measure for the District. Interest is payable semi-annually on February 1 and August 1 of each year at an interest rates ranging from 3.6%-6.9% commencing August 1, 2009. Principal is payable on August 1 of each year commencing August 1, 2009 and the maturity date August 1, 2033.

In May 2009, the District issued \$5,866,919 of the 2004 Election, Series 2009E General Obligation Bonds. Proceeds from the sale of the bonds will be used to provide funding for college facilities projects as stated in the ballot measure for the District. Interest is payable semi-annually on February 1 and August 1 of each year at an interest rate of 6.9% commencing August 1, 2009. Principal is payable on August 1 of each year commencing August 1, 2033 and through the maturity date August 1, 2037.

In January 2011, the District issued \$9,405,512 of the 2010 Election, Series 2010A General Obligations Bonds. Proceeds from the sale of the bonds will be used to provide funding for college facilities projects as stated in the ballot measure for the District. Interest is payable semi-annually on February 1 and August 1 of each year at an interest rate of 6.8% commencing August 1, 2015. Principal is payable on August 1 of each year commencing August 1, 2015 and through the maturity date August 1, 2040.

In December 2012, the District issued \$19,420,000 of the 2010 Election, Series 2012 Refunding Bonds. The bonds are issued to refund all or a portion of the Districts 2004 Election, Series 2005 bonds. Interest rates range from 2.00% to 5.00% maturing August 1, 2026.

NOTE 6 - LONG-TERM OBLIGATIONS, continued

Bonded Debt, continued

In March 2014, the District issued \$16,642,939 of the 2010 Election, Series 2014A, General Obligation Bonds. Proceeds from the sale of the bonds will be used to finance certain college facilities. The issue consisted of (a)\$3,610,000 Current Interest Bonds with an interest rate of 5.00% due August 1, 2041, \$7,980,000 of Current Interest Bonds with an interest rate of 4.625% due August 1, 2041, \$1,965,733 of Capital Appreciation Bonds with interest rates ranging from 3.95% to 7.99% due August 1, 2016 through August 2034, and \$3,087,206 of Convertible Capital Appreciation Bonds with interest rates ranging from 4.5% to 5.1% due August 2029 through August 2037.

Principal payments on the bonds are due August 1 of each year beginning August 1, 2016 while interest is paid semi- annually on February 1 and August 1 each year through maturity. Net proceeds of \$16,491,950, after premium cost of issuance, were deposited into an escrow deposit and trust account to provide for the payment for the District's 2010 General Obligation Bond Anticipation Notes of \$14,000,956 due August 2014, with additional proceeds of \$150,939, deposited into the Measure J Building Fund to provide for the financing of college facilities.

In November 2017, the district issued \$16,200,000 of the 2010 Election, Series 2017 Refunding Bonds to refund the General Obligation Bonds of Election 2004, Series 2007C and the 2010 General Obligation Bonds, Series 2010A. Interest rates range from 3.00% to 5.00% maturing August 1, 2037.

In August 2018, the District issued \$32,208,655 of the 2010 Election, Series 2018C General Obligation Bonds. The issue consisted of \$9,775,000 of Current Interest Bonds with interest rates ranging from 3.00% to 5.00% and maturing August 1, 2037, and \$22,433,655 of Capital Appreciation Bonds with interest rates ranging from 2.19% to 4.31% maturing August 1, 2043.

The outstanding general obligation bonded debt as of June 30, 2019 is as follows:

	Original	Balance				Balance	Due Within
	Issue	July 1, 2018	Adjustments	Additions	Redeemed	June 30, 2019	One Year

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS

The District provides postemployment health care benefits in accordance with District employment contracts to all employees and their eligible dependents who retire from the District until attaining age 65 with at least ten years in service. When the retiree attains age 65, all postemployment benefits cease. The District contributes 100 percent of the amount of the benefit premium costs incurred by retirees and their dependents.

Benefits Provided

The eligibility requirements and benefits provided by the Plan are described below. (Some grandfathered certificated retirees receive additional benefits under a recent retirement incentive.)

	Faculty	Classified		
Benefit types provided	Benefit types provided Medical, Dental and Vision			
Duration of Benefits	Lifetime	Lifetime*		
Required Service	Hired before July 1, 2012:	12 years**		
	Age 55 to 60: 14 years			
	Age 61 to 64: Age+Service at lease 74			
	Age 65+: 9 years			
	Hired after June 30, 2012:			
	18 years			
Minimum Age	55***	50**		
Dependent Coverage	Yes	Yes

District Cap	None	None		

^{*}No vision benefits beyond age 65.

Plan Membership

Membership of the Plan consisted of the following:

	Number of
	Participants
Inactive Employees Receiving Benefits	203
Participating Active Employees	289
	492

Total OPEB Liability

The Imperial Community College District's total OPEB liability of \$63,451,633 was measured as of June 30, 2018 and was determined by an actuarial valuation as of that date.

^{**}Age plus years of service must be at least 70.

^{***}For those hired before July 1, 1983, 8 years of service.

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS, continued

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Fiscal year	July 1st to June 30th
Actuarial cost methods	Entry age normal cost method
Inflation rate	2.75%
Investment rate of return	3.80%
Salary Increase	2.75%
Healthcare cost trend rate	4.00%
Mortality Rates	For certificated employees the 2009 CalSTRS mortality tables were used.
	For classified employees the 2014 CalPERS active mortality for miscellaneous employees
	were used.

Changes in Total OPEB Liability

	Increase/(Decrease)							
	Total OPEB			al Fiduciary		Net OPEB		
		Liability	Ne	et Position	Lia	ability (Asset)		
		(a)		(b)		(a) - (b)		
Balance July 1, 2017	\$	63,451,633	\$	-	\$	63,451,633		
Changes for the year:								
Service cost		2,771,759		-		2,771,759		
Interest		2,425,349		-		2,425,349		
Employer contributions		-		2,025,052		(2,025,052)		
Changes of assumptions		(2,806,601)		-		(2,806,601)		
Expected benefit payments		(2,025,052)		(2,025,052)		-		
						_		
Net change		365,455		-		365,455		
Balance June 30, 2018	\$	63,817,088	\$	-	\$	63,817,088		

The Imperial Community College District has invoked Paragraph 244 of GASB Statement 75 for the transition due to cost constraints. Consequently, in order to determine the beginning total OPEB liability, a "roll-back" technique has been used.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS, continued

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of Imperial Community College District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.80 percent) or one percentage point higher (4.80 percent) than the current discount rate:

	Discount Rate			Current	Discount Rate		
		1% Lower		Discount Rate		1% Higher	
		(2.80%)		(3.80%)		(4.80%)	
Net OPEB liability	\$	73,283,856	\$	63,817,088	\$	55,942,840	

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the total OPEB liability of the Imperial Community College District, as well as what the District's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point lower (3.00 percent) or one percentage point higher (5.00 percent) than the current healthcare cost trend rate:

	Trend Rate			Current	Trend Rate
		1% Lower		Trend Rate	1% Higher
		(3.00%)		(4.00%)	(5.00%)
Net OPEB liability	\$	55,433,260	\$	63,817,088	\$ 73,746,780

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019, the Imperial Community College District recognized OPEB expense of \$4,608,929. At June 30, 2019, the Imperial Community College District reported deferred outflows of resources related to OPEB and deferred inflows of resources related to OPEB from the following sources:

Deferred Outflows Deferred Inf of Resources of Resourc
Change in assumptions \$ - \$ 2,290 District contributions subsequent
to the measurement date 2,946,734
\$ 2,946,734 \$ 2,296

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS, continued

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB, continued

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to pensions will be recognized as follows:

	Deferred		
	0	utflows/(Inflows)	
Year Ended June 30,		of Resources	
2020	\$	(510,292)	
2021		(510,292)	
2022		(510,292)	
2023		(510,292)	
2024		(255,141)	
	\$	(2,296,309)	

Fiduciary Net Position

In November 2018, the District established an OPEB Trust with Public Agency Retirement Services (PARS). The trust is an irrevocable trust that is used to off-set the District's total OPEB liability. Contributions to the Trust will be recognized in subsequent years as a reduction to the total OPEB liability. As of June 30, 2019, the District's ending balance in the OPEB Trust was \$674,466.

NOTE 8 - PENSION PLANS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS). The District reported its proportionate share of the net pension liabilities, pension expense, deferred outflow of resources, and deferred inflow of resources for each of the above plans as follows:

				Collective		Collective		
	Co	ollective Net	Defe	rred Outflows	Def	erred Inflows	(Collective
Pension Plan	Per	nsion Liability	0	f Resources	of	Resources	Pen	sion Expense
CalSTRS	\$	34,128,132	\$	10,819,720	\$	3,736,482	\$	4,361,624
CalPERS		19,565,832		5,706,521		117,484		3,864,807
Total	\$	53,693,964	\$	16,526,241	\$	3,853,966	\$	8,226,431

NOTE 8 - PENSION PLANS, continued

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the California State Teachers' Retirement System (CalSTRS); a cost-sharing multiple employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, CA 95826.

Benefits Provided

The School Teachers' Retirement Plan (STRP) provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP. The District contributes exclusively to the STRP Defined Benefit Program; thus, disclosures are not included for the other plans. The STRP provision and benefits in effect as June 30, 2019 are summarized as follows:

	STRP Defined Benefit Plan			
	On or before	On or after		
Hire date	December 31, 2012	January 1, 2013		
Benefit formula	2% at 60	2% at 62		
Benefit vesting schedule	5 years of service	5 years of service		
Benefit payments	Monthly for life	Monthly for life		
Retirement age	60	62		
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%		
Required employee contribution rate	10.25%	9.205%*		
Required employer contribution rate	16.28%	16.28%		
Required state contribution rate	9.328%	9.328%		

^{*}The rate imposed on CalSTRS 2% at 62 members assuming no change in the normal cost of benefits.

NOTE 8 – PENSION PLANS, continued

Contributions

Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. The contribution rates for each plan for the year ended June 30, 2019 are presented above and the total District contributions were \$3,528,880.

On-Behalf Payments

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for community college education. These payments consist of state general fund contributions of approximately \$3,115,233 to CalSTRS, including Senate Bill 90, passed during 2018-19.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 34,128,132
State's proportionate share of the net pension liability	
associated with the District	19,540,892
Total	\$ 53,669,024

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2017 and rolling forward the total pension liability to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was .037% percent, which was an increase of .001% percent from its proportion measured as of June 30, 2017.

NOTE 8 – PENSION PLANS, continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

For the year ended June 30, 2019, the District recognized pension expense of \$4,361,624. In addition, the District recognized pension expense and revenue of \$1,047,636 for support provided by the State. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between projected and actual earnings on				
plan investments	\$ -	\$	1,313,852	
Differences between expected and actual experience	105,830		495,253	
Changes in assumptions	5,301,580		-	
Net changes in proportionate share of net pension liability	1,883,430		1,927,377	
District contributions subsequent to the measurement date	3,528,880		-	
Total	\$ 10,819,720	\$	3,736,482	

The \$3,528,880 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		Deferred		
	Ou	tflows/(Inflows)		
Year Ended June 30,	C	of Resources		
2020	\$	1,392,798		
2021		900,410		
2022		(667,485)		
2023		857,125		
2024		1,076,496		
Thereafter		(4,986)		
	\$	3,554,358		

NOTE 8 – PENSION PLANS, continued

Actuarial assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Experience study	July 1, 2010, through June 30, 2015
Actuarial cost method	Entry Age Normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on MP-2016 series tables adjusted to fit CalSTRS experience.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010–June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance–PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2019, are summarized in the following table:

	Assumed Asset	Long-term Expected
Asset Class	Allocation	Real Rate of Return*
Global Equity	47%	6.30%
Fixed Income	12%	0.30%
Real Estate	13%	5.20%
Private Equity	13%	9.30%
Cash/Liquidity	2%	-1.00%
Risk Mitigating Strategies	9%	2.90%
Inflation Sensitive	4%	3.80%
	100%	
*20-year geometric average		_

NOTE 8 – PENSION PLANS, continued

Discount rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	 (6.10%)	(7.10%)	(8.10%)
Plan's net pension liability	\$ 49,993,720	\$ 34,128,132	\$ 20,974,021

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

California Public Employees' Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) and the Safety Risk Pool under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plans regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016, annual actuarial valuation reports, Schools Pool Actuarial Valuation, and the Risk Pool Actuarial Valuation Report, Safety. These report(s) and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: https://www.calpers.ca.gov/page/forms-publications.

NOTE 8 – PENSION PLANS, continued

Benefits provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or age 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2019, are summarized as follows.

	School Employer Pool (CalPERS)		
	On or before	On or after	
Hire date	December 31, 2012	January 1, 2013	
Benefit formula	2% at 55	2% at 62	
Benefit vesting schedule	5 years of service	5 years of service	
Benefit payments	Monthly for life	Monthly for life	
Retirement age	55	62	
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%	
Required employee contribution rate	7.000%	6.500%	
Required employer contribution rate	18.062%	18.062%	

Contributions

Active plan members who entered into the plan prior to January 1, 2013, are required to contribute 7.0% of their salary. The California Public Employees' Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 6.5% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contribution to CalPERS unless the employer payment of the member's contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2019 was 18.062% of annual payroll. Contributions to the plan from the District were \$1,860,656 for the year ended June 30, 2019.

NOTE 8 – PENSION PLANS, continued

On-Behalf Payments

The District was the recipient of on-behalf payments made by the State of California to CalPERS for community college education. These payments consist of state general fund contributions of approximately \$663,355 to CalPERS related to Senate Bill 90, passed during 2018-19

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$19,565,832 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was .073% percent, which was a decrease of .001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the District recognized pension expense of \$3,864,807. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of		Deferred Inflows of	
	Resources		Resources	
Difference between projected and actual earnings on				_
plan investments	\$	160,484	\$	-
Differences between expected and actual experience		1,282,664		-
Changes in assumptions		1,953,562		-
Net changes in proportionate share of net pension liability		449,155		117,484
District contributions subsequent to the measurement date		1,860,656		-
Total	\$	5,706,521	\$	117,484

NOTE 8 – PENSION PLANS, continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

The \$1,860,656 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		Deferred			
	Οι	ıtflows/(Inflows)			
Year Ended June 30,		of Resources			
2020	\$	2,145,233			
2021		1,633,354			
2022		77,202			
2023		(127,408)			
	\$	3,728,381			

Actuarial assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Experience study	July 1, 1997, through June 30, 2011
Actuarial cost method	Entry Age Normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.50%
Wage growth	Varies by entry age and service

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are derived using CalPERS' membership data for all funds. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

The actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period from 1997 to 2011.

NOTE 8 – PENSION PLANS, continued

Actuarial assumptions, continued

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were taken into account. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long- term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

	Assumed Asset	Real Return	Real Return
Asset Class*	Allocation	Years 1 - 10**	Years 11+***
Global Equity	50%	4.80%	5.98%
Fixed Income	28%	1.00%	2.62%
Inflation Assets	0%	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Assets	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
	100%		

^{*}In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

^{**}An expected inflation of 2.0% used for this period

^{***}An expected inflation of 2.92% used for this period

NOTE 8 – PENSION PLANS, continued

Discount rate

The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS' website.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1%	Current		1%
	Decrease	D	iscount Rate	Increase
	(6.15%)		(7.15%)	(8.15%)
Plan's net pension liability	\$ 28,486,915	\$	19,565,832	\$ 12,164,515

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

Pension Rate Stabilization Trust

In November 2018, the District established a pension rate stabilization trust with Public Agency Retirement Services (PARS). As of June 30, 2019, the district had contributed \$2,531,058 to the trust.

NOTE 9 – JOINT POWERS AGREEMENTS

Description

The District is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has one self-insurance fund (Internal Service Fund) which represents the required reserves for the District's self-funded Dental and Vision programs.

Significant losses are covered by commercial insurance for all major programs. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE 9 - JOINT POWERS AGREEMENTS, continued

Participation in Public Entity Risk Pools and JPAs

The Imperial Community College District participates in two joint powers agreements (JPA's) with the Imperial County School Districts Property and Liability Authority (ICSDPL) and the Self-Insured Program for Imperial County (SIPIC). The relationship between the Imperial Community College District and the JPA's is such that the JPA's are not component units of the Imperial Community College District for financial reporting purposes. The JPA's arrange for and provide workers compensation, health, property and liability insurance for its members. A board consisting of a representative from each member district governs each JPA. The board controls the operations of each JPA including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in each JPA. Financial information for the JPA's at June 30, 2019 was not included in this report. The information can be obtained by contacting the JPA directly.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

State of Federal Allowances, Awards and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, we believe that any requited reimbursements will not be material.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District as of June 30, 2019.

NOTE 11 – RESTATEMENT

The beginning net position decreased by \$4,764,403. This is due to adjustments to long-term debt, deferred revenues and prior year closing balances.

NOTE 12 – SUBSEQUENT EVENT

The District has evaluated subsequent events for the period from June 30, 2019 through the date of this report. Management did not identify any transactions that require disclosure or that would have an impact on the financial statements.

IMPERIAL COMMUNITY COLLEGE DISTRICT NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2019

NOTE 1 - PURPOSE OF THE SCHEDULE

Schedule of Changes in Net OPEB Liability and Related Ratios

This 10-year schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 75 was applicable. The schedule presents the sources of change in the total OPEB liability, and the components of the total OPEB liability and related ratios, including the total OPEB liability as a percentage of covered-employee payroll.

Schedule of Contributions - OPEB

This schedule presents information on the District's actuarially determined contribution, contributions in relation to the actuarially determined contribution, and any excess or deficiency related to the actuarially determined contribution. In the future, as data becomes available, ten years of information will be presented.

Schedule of Proportionate Share of Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered-employee payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

Schedule of Contributions - Pensions

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the District's covered-employee payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the District's covered-employer payroll.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for CalSTRS and CalPERS.

Changes in Assumptions

The CalSTRS plan rate of investment return assumption was changed from 7.60 percent to 7.10 percent since the previous valuation. The CalPERS plan rate of investment return assumption was changed from 7.65 percent to 7.15 percent since the previous valuation.

IMPERIAL COMMUNITY COLLEGE DISTRICT NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2019

NOTE 1 - PURPOSE OF THE SCHEDULE

District Organization

This schedule provides information about the District's governing board members and administration members.

Schedule of Expenditures of Federal Awards

The Schedule of Expenditure of Federal Awards includes the federal award activity of Imperial Community College District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-21, Cost Principles for Educational Institutions or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance

Schedule of Expenditures of State Awards

The accompanying schedule of expenditures of State Awards includes the state grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, the preparation of financial statements.

Schedule of Workload Measures for State General Apportionment

Full-Time Equivalent Students (FTES) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to community college districts. This schedule provides information regarding the attendance of students throughout the District.

Reconciliation of Education Code Section 84362 (50 Percent Law) Calculation

ECS 84362 requires the District to expend and minimum of 50 percent of the unrestricted General fund monies on salaries of classroom instructors. This is reported annually to the State Chancellor's Office. This schedule provides a reconciliation of the amount reported to the State Chancellor's Office and the impact of any audit adjustments and/or corrections noted during the audit.

Proposition 30 Education Protection Account (EPA) Expenditure Report

This schedule provides the District's summary of receipts and uses of the monies received through the EPA.

Reconciliation of Annual Financial and Budget Report (CCFS-311) with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District's audited financial statements.

Reconciliation of Fund Equity to Net Position

The schedule provides a reconciliation of the adjustments necessary to bring the District's internal fund financial statements prepared on a modified accrual basis, to the entity-wide full accrual basis financial statements required under GASB Statements No. 34 and No. 35. business-type activities reporting model

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Imperial Community College District Imperial, California

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Imperial Community College District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Imperial Community College District's basic financial statements, and have issued our report thereon dated December 10, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of financial statements, we considered Imperial Community College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Imperial Community College District's internal control. Accordingly, we do not express an opinion on the effectiveness of Imperial Community College District's internal control.

A deficiency in internal control exits when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal controls, described in the accompanying Schedule of Findings and Questioned Costs, that we considered to be a significant deficiency as Items 2019-001 through 2019-004.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Imperial Community College District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees Imperial Community College District Imperial, California

Report on Compliance for Each Major Federal Program

We have audited Imperial Community College District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Imperial Community College District's major federal programs for the year ended June 30, 2019. Imperial Community College District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Imperial Community College District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Imperial Community College Districts compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Imperial Community College District's compliance.

Opinion on Each Major Federal Program

In our opinion, Imperial Community College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-005. Our opinion on each major federal program is not modified with respect to this matter.

The District's response to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response

Report on Internal Control Over Compliance

Management of Imperial Community College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Imperial Community College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Imperial Community College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

San Diego, California December 10, 2019

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Board of Trustees Imperial Community College District Imperial, California

Report on State Compliance

We have audited Imperial Community College District's compliance with the types of compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2018-2019*, issued by the California Community Colleges Chancellor's Office for the year ended June 30, 2019 that could have a direct and material effect on each of Imperial Community College District's state programs for the fiscal year ended June 30, 2019, as identified below.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on Imperial Community College District's compliance with the requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *California Community Colleges Contracted District Audit Manual (CDAM) 2018-2019*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the state programs noted below. An audit includes examining, on a test basis, evidence about Imperial Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with the requirements referred to above. However, our audit does not provide a legal determination of Imperial Community College District's compliance with those requirements.

Opinion on State Compliance

In our opinion, Imperial Community College District complied, in all material respects, with the types of compliance requirements referred to above that are applicable to the state programs noted in the table below for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the *California Community Colleges Contracted District Audit Manual (CDAM) 2018-19*, and which are described in the accompanying schedule of findings and questioned costs as item Finding #2019-006. Our opinion is not modified with respect to these matters.

Procedures Performed

In connection with the audit referred to above, we selected and tested transactions and records to determine Imperial Community College District's compliance with the state laws and regulations applicable to the following items:

Section 421 - Salaries of Classroom Instructors (50 Percent Law)

Section 423 – Apportionment for Activities Funded From Other Sources

Section 424 – State General Apportionment Funding System

Section 425 - Residency Determination for Credit Courses

Section 426 - Students Actively Enrolled

Section 427 – Dual Enrollment (CCAP and Non-CCAP)

Section 430 – Scheduled Maintenance Program

Section 431 - Gann Limit Calculation

Section 435 – Open Enrollment

Section 439 - Proposition 39 Clean Energy Fund

Section 444 – Apprenticeship Related and Supplemental Instruction (RSI) Funds

Section 475 – Disabled Student Programs and Services (DSPS)

Section 479 – To Be Arranged Hours (TBA)

Section 490 – Proposition 1D and 51 State Bond Funded Projects

(MOL, Certifiel Poblic Accountants

Section 491 – Education Protection Account Funds

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing over state laws and regulations based on the requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2018-2019*. Accordingly, this report is not suitable for any other purpose.

This section identifies the significant deficiencies, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*.

FINDING #2019-001 - OVERALL CLOSING PROCESS

Criteria or Specific Requirement

Best practices require a review and reconciliation of all account balances to reflect proper activity at year end in accordance with Generally Accepted Accounting Principles (GAAP), and that the District general ledger accurately support all activity and ending balances.

Condition

Balances reported in the Districts financial system, Banner, are significantly off from the accurate financial results reported to the State Chancellors Office on the CCFS-311 and the audited financial statements.

Questioned Costs

Material adjustments to the Banner financial balances were required to properly state activity as of and during the fiscal year ending June 30, 2019. We also noted that unearned revenue was not reported in the District G/L or on the CCFS-311. An audit adjustment was made to properly state the unearned revenue balance. No questioned costs were associated with this finding as the audited financial statement balances appear to be materially accurate.

Context

Banner ending balances as of 6/30/2019 were materially different from the amounts reported on the CCFS-311, including:

		Ending Balance June 30, 2019					
Account	Fund	Banner		CCFS-311		Difference	
Cash	10	\$	14,396,309.85	\$	17,011,434.00	\$	2,615,124.15
Accounts Receivable	10		4,874,047.37		1,460,478.00		(3,413,569.37)
Accounts Payable	10		5,990,926.82		917,836.00		(5,073,090.82)

An audit adjustment of \$6,451,384 was recorded to properly state unearned revenue.

Effect

Material adjustments to the G/L balance were required for management to report results of operations to the Chancellor's. These adjustments were made by management to ensure the financial statements were presented fairly.

Cause

Variances in the Banner system due to inadequate procedures and/or system errors.

FINDING #2019-001 - OVERALL CLOSING PROCESS, continued

Recommendation

We recommend the District perform a detailed analysis of all ending balances as of 6/30/2019 and adjust the Banner system to reflect the accurate figures. The cause for the variances also needs to be examined at a detailed level to ensure that once balances are correct as of 6/30/2019 they remain accurate going forward.

Management's Response and Corrective Action Plan

Management concurs with this recommendation and has developed an action plan to bring in external consultants to work with District staff to correct the balances and identify the cause of the errors in the Banner system. This will be an extensive process that will begin in January 2020, and will be completed prior to the close of the books for 6/30/2020.

FINDING #2019-002 - CASH COLLECTIONS

Criteria

All cash collected on campus should follow the same internal control procedures as established by the District, including decentralized locations located throughout a campus.

Condition

During our interviews at decentralized cash collection locations on campus, we noted the following:

Administration of Justice Department - CRP Card Processing

As part of the training center, the department processes CPR cards for students who pass the training course. The cards are stored in a locked cabinet, however, there has been no reconciliation of the card stock to the amounts received. We recommend that the department should develop procedures to periodically inventory the cards and ensure that all proceeds are accounted for.

Administration of Justice Department – Book Fund

The department has book sellers who periodically buy old and unused books that have excess inventory. The money collected in stored in a cash box and the cash is used for various activities that are not in the budget. We recommend that all cash collected should be deposited to the bank and recorded to ensure proceeds are properly tracked and following District controls.

Library

The library department has their own system to track fees and charges. Although the cash gets deposited to the bank, no one reconciles the library system to the cash deposits in the District's GL to ensure all collections have been deposited. We recommend someone reconcile the systems to ensure all cash is accounted for.

FINDING #2019-002 - CASH COLLECTIONS, continued

Nursing Department

The nursing department administers assessment testing. For students to reserve a seat, the department charges a non-refundable deposit of \$20. This cash is deposited into a lock box and used for various department activities like the annual nursing celebration event. The cash is not recorded, nor deposited in a District bank account. We recommend that the cash be deposited to ensure proper tracking and recording.

Effect

Potential for misappropriation of cash.

Cause

The various departments are not following district adopted controls over cash receipting.

Recommendation

We recommend that all cash collected on campus follow the procedures in place by the District. All cash collected should be accounted for and recorded in the system and deposited into a District bank account.

Management's Response and Corrective Action Plan

Management concurs with this recommendation and will develop internal control procedures for all cash collections on campus All cash collections will be accounted for and recorded in the system and deposited into a District bank account. Cash collection procedures will identify and approve a limited amount of decentralized locations located throughout the campus authorized to collect cash. This procedure will be established and implemented prior to the close of the books for 6/30/2020.

FINDING #2019-003 - CASH BALANCE REPORTING

Criteria or Specific Requirement

The completeness and accuracy criteria of recording all cash balances in the proper time period under Generally Accepted Accounting Principles indicate that an analysis should be performed on all operations of the District. The District should review all operations and ensure that all cash balances and activity are properly reflected, and that all reconciliations are accurate and completed timely.

Condition

The District did not report the operations or cash balances in two PayPal accounts, which included the activity of community education classes, retiree health insurance premiums, and other activity. We also noted the ending cash balance in the clearing account may not be accurate.

Questioned Costs

No questioned costs identified. At June 30, 2019 the ending cash balance not reported was \$20,619. In addition, we noted potentially inaccurate reconciling items in the clearing account, including outstanding checks dated 2018.

Context

Two "off book" accounts (PayPal) were identified and reconciliation for the clearing account may not be accurate.

Effect

Incomplete and inaccurate financial reporting.

Cause

Clerical oversight and operational issues with the accounting for clearing fund activity.

Recommendation

The District should ensure that all financial operations are under District Business Office control, reported in the general ledger, and all cash balances are reflected in the statement of financial position.

Management's Response and Corrective Action Plan

The District will research a more appropriate method of accepting payments for the transactions currently done through PayPal to eliminate this practice. Management will report all activity and explore options for the best practice to record and account for this activity. Management has developed an action plan to bring in external consultants to work with District staff to correct the clearing account balances and identify the cause of the errors in the Banner system. This will be an extensive process that will begin in January 2020 and will be completed prior to the close of the books for 6/30/2020.

FINDING #2019-004 - STUDENT CLUB ACCOUNTS (ASG and other Clubs)

Criteria

District internal control procedures over cash receipts require that no person with access to cash receipts have sole responsibility over access, recording and custody, and that all cash receipts be properly supported by detail that would allow for sufficient review and recalculation of amounts earned. This requirement applies to all operations of the District, including trust account activity for student groups.

Condition

In our testing over cash receipts, we noted receipts received at decentralized collection points lacked sufficient detail for the District office to ensure that proper segregation of duties with respect to receipting functions were in place, and that reviews were performed to thoroughly reconcile amounts collected and deposited.

Effect

Non-compliance with District procedures and lack of proper internal controls.

Cause

Decentralization of receipting activities.

Fiscal Impact

No direct fiscal impact.

Recommendation

We recommend the District increase centralized monitoring efforts to ensure segregation of the core duties over the cash handling process for all organizations and ensure that sufficient detail of receipts are maintained to allow for recalculation of revenue.

Management's Response and Corrective Action Plan

Management concurs with this recommendation and will develop internal control procedures to ensure segregation of duties for all student group accounts. The District will research a more appropriate method of accepting payments for all transactions. Management will explore options for the best practice to record and account for all revenue. This procedure will be established and implemented prior to the close of the books for 6/30/2020.

IMPERIAL COMMUNITY COLLEGE DISTRICT FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2019

Section III – Federal Award Findings and Questioned Costs

This section identifies the audit findings required to be reported by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (e.g., deficiencies, significant deficiencies, material weaknesses, and instances of noncompliance, including questioned costs).

FINDING #2019-005 - GRAMM-LEACH-BLILEY ACT COMPLIANCE

Criteria or Specific Requirement

The Gramm-Leach Bliley Act (GLBA) requires districts to have a documented response to the Safeguards Rule. Specifically, this response covers key requirements including:

- Designate an information security officer and related oversight responsibilities for the institution's security.
- Assess the risks to confidential information, assess the level of mitigating controls in place, and identify action plans to accept or further mitigate remaining risks.
- Implement an information security program, including various technical and physical underlying controls, such as data encryption and secure shredding processes.
- Oversee vendor relationships to ensure confidential data are secured at their locations when applicable and access is controlled when vendors connect to the institution.
- Perform an ongoing evaluation of their program to keep content current with an ever-evolving security environment.

Condition

We noted that the development of the response is currently underway with anticipated completion and implementation during 2019-20.

Questioned Costs – Not applicable.

Context

Compliance with GLBA requirements.

Effect

The intent of the GLBA Safeguards Rule is to enhance security over confidential information. Without a documented response to all applicable requirements, the District is more susceptible to IT vulnerabilities than it will be following full implementation.

Cause

Steps taken in response to GLBA compliance requirements, new for the 2018-19 year, require extensive administrative efforts to implement.

FINDING #2019-005 - GRAMM-LEACH-BLILEY ACT COMPLIANCE, continued

IMPERIAL COMMUNITY COLLEGE DISTRICT FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2019

Recommendation

The District should continue towards full implementation of its documented response to the GLBA Safeguards Rule in the 2019-20 year.

Management's Response and Corrective Action Plan

Management concurs with this recommendation and the district is in the process of establishing an information security program to meet the standards set forth by GLBA. The program will include, designated oversight, policies and procedures, physical and technical controls, and on-going yearly evaluations to substantiate that the District continues to meet GLBA standards.

IMPERIAL COMMUNITY COLLEGE DISTRICT STATE AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2019

Section IV – State Award Findings and Questioned Costs

This section identifies the audit findings pertaining to noncompliance with state program rules and regulations.

FINDING #2019-006 - STUDENT RESIDENCY, ATHELTES FORM 1

Criteria

Per the California Community College Chancellor's Office Contracted District Audit Manual, all student athletes who participate in an organized competitive sport sponsored by the college should have a completed Athlete's Commission Athletics Form 1 on file. This information should be completed, and all applicable information should be consistent with the students registration documents.

Condition

In our testing of student athlete residency, we noted two instances of non-compliance related to the Athlete's Commission Athletics Form 1. One student was locked as "Out-of-State" of the Form 1 but listed as a resident. This student was determined to be a resident. Another student did not indicate if the student was in-district, instate, etc.

Effect

Potential for a student to be classified wrong for purpose of reporting student residency status.

Cause

Inadequate review over Athlete's Commission Athletes Form 1.

Recommendation

We recommend that all student athletes who are required to have a Form 1 on file, be verified to ensure that the form is complete and matching the students residency application.

Management's Response and Corrective Action Plan

Management concurs with this recommendation and has implemented a change in this process. Completed Athlete's Commission Athletics Form 1 will be sent to and reviewed by the Admissions and Records Department to ensure consistency with student registration documents. This new process will be implemented during the 2019-20 year.

IMPERIAL COMMUNITY COLLEGE DISTRICT SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2019

There were no findings or questioned costs for the prior fiscal year ended June 30, 2018.
