

Members Present: John Anderson, Nicole Nicholas Gilles, Tim Kelley, and Rick Webster Jr.

Absent: Marlene Best, Amanda Brooke and Gil Perez

Others Present: Anne Mallory, John Lau, Vice President for Business Services

Recorder: Mary Carter

Call to Order/Introductions

The regular meeting of the Citizens Oversight Committee for Measure L was called to order at 2:00 p.m. on Thursday, June 4, 2009 in the IVC Board Room.

Introductions of Members and Nominees

John Lau reported that Everett "Butch" Taylor has been nominated to fill the retiree seat on the committee; Mr. Taylor's appointment will be effective July 1, 2009, after approval by the Board of Trustees. Anne Mallory has been appointed as a member-at-large, and will replace John Anderson effective July 1, 2009. Mr. Anderson will be retiring as County Superintendent of Schools effective June 30, 2009. Mr. Lau thanked all current and departing members for their service.

Science Building Update

Mr. Lau reported that construction of the science building is on schedule, with classes to be held in the new building in Spring 2010. Tours of the building will be offered in early October. The College is in the process of selecting furniture, with a budget of \$1 million. There is a bid opening scheduled for today on the final bid packages for the Science Building.

The Science Building was more costly than originally envisioned (\$34 million versus \$24 million), so less resources are available for other projects. The College will be evaluating what projects can be accomplished with the remaining bond funds. The IVC campus is 50 years old, and modernization is needed in many areas. The College is attempting to obtain state funding, and has several projects in the pipeline; however, state funds are dependent on the passage of construction bonds and other factors. There is also a possibility of obtaining \$700,000 in federal transportation funding for roadway improvements.

Other projects

Mr. Lau reported that the College is a finalist for a solar demonstration project. A solar company is proposing to use 12 acres of land for a solar farm. The College will have more information by late summer. The College is working with the City of Imperial on a possible tie-in to the city's sewer line. An application for a low interest loan has been filed. The College's long-term goal is to have city water services instead of having to maintain its own sewer plant. The impact of 8,000 students is being felt in many areas, such as traffic, water and sewer. There is a great need for modernization, and the college will be exploring the feasibility of another bond issue.

<u>Annual Report</u> Copies of the annual report were distributed to the committee. The report will be available on the IVC web site. Mr. Lau noted that \$10 million in contracts went directly to local companies, with additional funds going to local sub-contractors.

Mr. Lau reported that all bonds have been sold; the rating for the last series was an "A".

Expenditure Report

The committee reviewed a report of bond expenditures through June 4, 2009. Total expenditures are \$29,779,401 (since 2004-05). There is currently \$30,371,063 cash in the County Treasury.

Meeting adjourned at 2:50 p.m.
