

CONCURRENT ENROLLMENT PROGRAM

RN to BSN – Stat

There's a shorter path to a RN to BSN. Students pursuing an Associate Degree in Nursing (ADN) typically have to wait until they finish it and secure their Registered Nurse License (RN) before beginning Bachelor of Science (BSN) courses. But not anymore.

With the help of our Concurrent Enrollment Program (CEP), students working on their ADN can also complete four upper division nursing courses while completing their ADN. These students are also eligible for our Tuition Guarantee program which will freeze their tuition at \$350 per credit hour while they complete their BSN program.

How it works

When students enroll in the CEP, they take classes between semesters at your community college. Students may begin after the first, second, or third semesters, and depending upon when they start, they can complete up to four upper division nursing courses.

CEP students are enrolled in courses with other ADN completers, providing students a built-in support system. And the best part is, the alliance we have with your community college allows the ADN to be transferred to University of Phoenix as a block of 87 credits. After completing the CEP courses, the student is left with only 7-9 courses to earn their RN to BSN degree.

[Please see reverse side for important information]

Explore the value of our Concurrent Enrollment Program.

The CEP program sets your ADN students to be on track to:

Complete their RN to BSN in approximately one year after passing the NCLEX-RN® exam

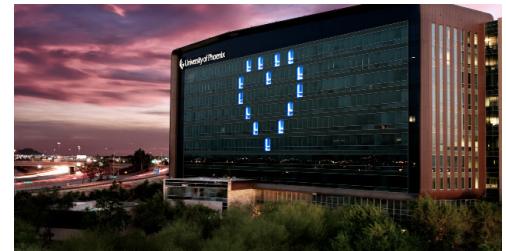

Get a jumpstart on their BSN during semester breaks

Complete an ADN that transfers to the University as a block of 87 credits

Students enrolling in CEP will be assigned a team of advisors that can assist them with questions about enrollment, academics and finances. They can also take advantage of our full suite of University resources.

About University of Phoenix

University of Phoenix was founded in 1976 to make higher education accessible to working adults. Our students benefit from the convenience of evening classes, flexible scheduling, frequent start dates, a student-centered environment, online classes, mobile-friendly classrooms, a digital library and computer simulations. Our promise to our students is to provide an innovative education designed around practicality and relevant skills that are sought after in today's workplaces.

Help your ADN student prepare for a RN to BSN program that features:

- Accreditation by the Commission on Collegiate Nursing Education (CCNE)*
- Instructors who average 20 years of real-world nursing experience
- Curriculum aligned with third-party industry standards, including:
 - American Association of Colleges of Nursing (AACN)
 - Quality and Safety Education for Nurses (QSEN)
 - American Nurses Association (ANA)

Questions?

If you have students who inquire about the CEP program please direct them to our website at www.phoenix.edu/cep or have them email us at tpenner@phoenix.edu stating they are interested in the Nursing CEP program and providing the following information: First & last name, email, phone number and community college attending.
